

Instanta SureFlow Touch Wall Mounted

Instant boiling water

Features and benefits

- Choice of water dispense: either standard push and hold (on demand) or, if preferred, programmable timed dispense.
- Top-up feature allows the user to top-up the drink following a measured dispense for the perfect cup every time.
- Quick and easy programmable measured water delivery function for fast and efficient service.
- LCD screen displays a prominent 'caution hot water' safety message which flashes whenever hot water is dispensed, ensuring user safety.
- Electrical mains cord and water inlet coupling are underneath the boiler to provide a choice of service connections from under counter or counter top.
- Complete with fixing points in the case for an optional bracket and spill tray.

Temperature settings

- Factory set to operate at 96°C.
- Adjustable boiling temperature set-point.

Power rating

3kW @ 230V.

Capacities

6 litre.

Construction

- Premium grade stainless steel.
- Well insulated for minimal heat loss and energy use.
- Low voltage switching.

Warranty

Two year warranty.

Installation

As per instruction manual supplied.

Plumbing

Designed for a direct connection to a potable cold water supply using the fittings supplied. An isolating valve should be installed between the supply and the heater. These wall mounted boilers have a rear connection and overflow, requiring a two bar incoming water pressure.

Electrical

To be connected to a 230V, 13 amp supply (minimum cable size: 15mm²). Use of an Earth leakage circuit breaker (ELCB) is recommended.

Accessories

Stainless steel drip tray available to purchase separately, part number DBST1KIT.

Product code	Capacity (litres)	Heat up time (minutes)	Power rating kW @ 230V	Rapid draw off (litres)	Boiling cups per hr @ 167ml	Tap depth (mm)	W x D x H (mm)
