# Genware Brochure

October 2014

Established for over 45 years, the Genware product range offers the perfect balance of quality, fitness for purpose and value for money covering a comprehensive range of catering products.

With an extensive UK stockholding and availability, Genware products can be selected and ordered for immediate dispatch across the UK, Eire and Europe.

Products and services are developed to meet the evolving needs of the professional catering sector, with new products a key part of each brochure edition.

Ask our sales team, they will be happy to help and find the right product for you.

# Royal Genware Fine China Tableware

Royal Genware Fine China provides contemporary designs and shapes combined with stunning pure white colour. Products are designed with the tough foodservice environment in mind, with rolled edges on selected lines to improve chip resistance.

Ranges are fully vitrified and conforms to BS4034 for low water absorption, improved hygiene, protection against thermo shock, increased strength and better heat retention with selective products available with a five year edge chip guarantee\*. This range is perfectly suited to banqueting, hotel, restaurant and gastropub use, giving an enhanced dining experience.

*Stunning, durable range, with innovative  
shapes and fantastic colour*

- **Pure White Fine China Colour**  
*Brilliant white colour for an attractive appearance is complimented by a lighter body, making these items both stunningly attractive and finely elegant*

- **Fully Vitrified**  
*Low water absorption, protection against bacterial growth and improved heat retention*

- **Conforms to BS4034 Quality Standard**  
*Royal Genware Fine China conforms to the quality standard measurement set by the British Standards Institute*

- **5 Year Edge Chip Warranty**  
*For quality assurance and peace of mind on selected lines*

- **Oven and Freezer Safe**  
*For protection against damage caused by thermo shock and temperature fluctuation*

- **Microwave and Dishwasher Safe**  
*Perfect for time efficient heating and cleaning requirements*

- **Durable Glaze**  
*The hardness of the glaze lasts longer prolonging the lifeline of the product whilst also improving stain resistance for an enhanced appearance*

- **Rolled Edges**  
*For added chip resistance in busy kitchen environments*

# Royal Genware Porcelain Tableware

Royal Genware Porcelain Tableware offers a great quality range of durable and practical hotelware. The extensive collection covers multiple plate, bowl and beverage lines, with complementary service items to make your place setting complete.

The range is fully vitrified and conforms to BS4034, for low water absorption, improved hygiene, protection against thermo shock, increased strength and better heat retention. They are also microwave, oven, dishwasher and freezer safe.

The products are designed to withstand the tough foodservice environment, with rolled edges and rims on products to improve edge chip resistance, with selective products available with a five year edge chip guarantee\*. Royal Genware Porcelain Tableware is suitable for most hotel, restaurant and foodservice applications.

*Comprehensive range of strong, elegant  
and durable tableware*

- **Microwave and Dishwasher Safe**

*Perfect for time efficient heating and cleaning requirements*

- **Conforms to BS4034 Quality Standard**

*Royal Genware Porcelain conforms to the quality standard measurement set by the British Standards Institute*

- **5 Year Edge Chip Warranty**

*For quality assurance and peace of mind on selected lines*

- **Durable Glaze**

*The hardness of the glaze lasts longer prolonging the lifeline of the product whilst also improving stain resistance for an enhanced appearance*

- **Fully Vitrified**

*Low water absorption, protection against bacterial growth and improved heat retention*

- **Oven and Freezer Safe**

*For protection against damage caused by thermo shock and temperature fluctuation*

- **Rolled Edges**

*For added chip resistance in busy kitchen environments*

## Classic Plates

Versatile and complete collection of plates with rolled rims for edge chip resistance.

*Classic Plates*

# Oven to Tableware

Royal Genware Oven to Tableware perfectly complements our range of Porcelain Tableware. Oven, microwave, freezer and dishwasher safe, fully vitrified to BS4034, these ranges perform in all catering applications, adding to the foodservice presentation.

Individual service items, like Mini-Casserole Dishes and Contemporary Smooth Ramekins give a new twist to food presentation.

Hot counter service presentation can be improved with our range of roasters and gastronorm dishes, maximising fully hot counter space and minimising heat loss and cost.

New for this brochure, our new size of Rectangular Roaster and the addition of a new Deep Roaster complement our existing range of hot service counter items and benefit from excellent heat retention, versatility and durability.

*A stylish, practical and durable range of food presentation and counter service products*

- **Conforms to BS4034 Quality Standard**

*Royal Genware Oven to Tableware conforms to the quality standard measurement set by the British Standards Institute*

- **Microwave and Dishwasher Safe**

*Perfect for time efficient heating and cleaning requirements*

- **Heat Retention**

*The Oven to Tableware products benefit from superior heat retention properties*

- **Oven and Freezer Safe**

*The Oven to Tableware range benefits from a high level of thermo shock resistance*

- **Rolled Edges**

*For added strength, durability and chip resistance in busy kitchen environments*

- **Durable Glaze**

*The hardness of the glaze lasts longer prolonging the lifeline of the product whilst also improving stain resistance for an enhanced appearance*

- **Fully Vitrified**

*Low water absorption, protection against bacterial growth and improved heat retention*

# ■ Royal Genware Stoneware

This new and exciting section to the Genware brochure consists of three very unique ranges of stylish stoneware. Both versatile and tough, Stoneware boasts an overall strength of body and chip resistance similar to porcelain.

The addition of our new Black Stoneware range offers a selection of dishes and ramekins, great as standalone items or when used to add striking contrast to traditional white tableware or alongside our range of wooden serving boards.

The new range of Rustic Stoneware provides both individuality and flair to food presentation, specifically complementing the vibrancy and colourful nature of South American cuisine.

*Stunning, durable range, with innovative shapes and fantastic colour*

- **Style and Colour**

*Royal Genware Stoneware is available in an assortment of attractive colours and designs that lend themselves perfectly to a variety of exciting food styles*

- **Oven and Freezer Safe**

*For protection against damage caused by thermo shock and temperature fluctuation*

- **Microwave and Dishwasher Safe**

*Perfect for time efficient heating and cleaning requirements*

- **Coloured Glaze Finish**

*Improves stain resistance and durability whilst providing an enhanced appearance*

## Luna Stoneware

Luna Stoneware offers the perfect balance between contemporary style and durability with items available in an attractive matte black finish or a matte white glaze. Luna is particularly suited to Asian, Asian fusion and Mediterranean cuisine.

# Glassware

Genware Glassware is an exciting, concise and durable range of quality glassware, designed to fulfil the key needs of the foodservice industry. Stemware, Tumblers, Beer glasses, Shots & Cocktail, Hot Beverage and Dessert glassware are included, covering a large number of applications and establishment needs.

All products are dishwasher safe and we offer a rim and foot chip guarantee on all stemware. In order to prolong the life and quality of your glassware in use, we recommend following our product care and guidance information on page 350.

New for this brochure, Nord Hiball Tumblers are an exciting new addition to the Genware Glassware range and feature a textured base, adding both style and character; perfect for mojitos and other cocktails. Elsewhere, our new range of Empire Hiball and Rocks Tumblers are ideal for cocktails and spirits respectively.

*A concise range of elegant,  
durable glassware*

- **Dishwasher Safe**

*Perfect for time efficient cleaning of glasses in busy restaurants and bars*

- **Beaded Rim**

*Providing improved strength and durability of the glass, lengthening its lifespan*

- **Single Piece of Glass**

*All stemware within the Genware range of glassware is manufactured from a single piece of glass, significantly increasing its strength and durability*

- **Rim and Foot Chip Guarantee**

*Available on all Stemware, this guarantee offers the assurance of quality and peace of mind*

## Stemware

Our range of stemware are made from one piece of glass for added strength and durability.

# Table Presentation

The Genware range of innovative Table Presentation items show how foodservice has developed beyond purely standard plates and service lines. Wood platters and boards offer a natural, rustic and stylish look, fully tested to British standards for food safety.

Miniature baskets and buckets offer a fun and easy way to spice up food presentation and can provide new menus and dishes with the 'wow' factor. Slate products provide a stylish and contemporary alternative to traditional food service presentation and feature rubber feet to prevent scratching.

New for this brochure, our stylish and sleek Acacia Wood Serving Platters are perfect for a wide use of applications, whether being used to serve gourmet fast food or coffee and cake. We also have an exciting range of Terracotta Pots that can be lined with grease proof paper to serve side dishes such as chips or can be used as a cutlery holder, perfect for the modern gastro pub.

*Innovative, design-led ideas that can transform food*

# Table Presentation

## Olive Wood Serving Boards

- Olive wood is known for its versatility, strength and striking appearance with each piece having its own unique features due to the olive tree's distinctive grain
- Olive wood is a natural product with each piece being carefully crafted by hand therefore **size, shape and finish will vary from piece to piece**
- All boards are made from **2-2.2cm thick olive wood** giving the product a premium heavyweight feel and ensuring a longer life

Code	Size (L x W)	£ each	€ each
OWSB	40 x 21cm - Serving board with groove	26.00	32.50
OWPBL	44 x 20cm - Paddle board	24.00	30.00
OWPBM	38 x 18cm - Paddle board	16.00	20.00
OWRPL	53 (min) x 13cm - Rustic platter	24.00	30.00
OWRPM	43 (min) x 13cm - Rustic platter	19.00	23.75
OWRPS	33 (min) x 13cm - Rustic platter	16.00	20.00
OWRPXS	26 (min) x 13cm - Rustic platter	13.00	16.25

All sizes are approximate due to the natural variation in shape and grain of the olive wood tree.

# Genware Cutlery

Genware Cutlery ranges are designed to offer performance, style and value.

Two contemporary 18/0 patterns, heavyweight Saffron and classic Florence give the perfect mix of style and affordability.

Our Parish pattern cutlery in 18/0 is hand polished, offering excellent resistance to staining and pitting, and a consistent quality and finish.

Plain cutlery with good cutting blades and consistent finish provide volume users the right balance of quality and value.

*Versatile Cutlery patterns and styles,  
combining quality, durability and value*

# Menus, Signs and Displays

Genware have a wide range of menus, signs and displays available, all of which are perfect for highlighting awareness of promotions, daily specials or events.

Our menus are available in a selection of attractive designs and range from contemporary through to classic. We also have a variety of menu accessories including menu boxes and menu inserts.

Wall chalk boards are a great way to communicate messages to customers and are available in an array of sizes to suit a wide scope of requirements, whilst our pavement chalk boards are a great way to drive traffic into establishments.

New for this brochure, the bold, bright and eco-friendly Rio menu collection provide a vibrant alternative to standard menus and are UV, scratch and stain resistant as well as being flexible and easy to clean.

*A variety of innovative and functional products for effective customer communication*

# Beverage

Genware Beverage items are designed to cover a wide range of applications. Unbreakable vacuum pots and jugs provide excellent heat retention, making them ideal for conferencing, meetings and corporate events.

Insulated jugs in white and black offer stylish beverage service that complements ceramic tableware. Cafetières are available in all sizes, with tough pyrex glass and good quality materials make these perfect for service of coffee and speciality teas.

New for 2014, our economy Drink Dispenser and coloured Polycarbonate Tumblers are perfect for schools, hospitals and other such establishments.

*Practical solutions to serve fresh,  
hot beverages*

# Buffet & Display

Within Buffet & Display you will find a variety of products perfectly suited for a wide range of buffet requirements including both hot and cold buffet service. We offer a contemporary yet functional range of white and black platters designed in gastronorm sizes to fit standard sized counters and displays.

We also have a selection of reversible polished granite/slate stone effect platters for interchangeable variety. Our versatile buffet bowls are strong, lightweight and dishwasher safe and are available in a range of shapes and sizes to suit any setting.

Buffet Risers, Rustic Wooden Crates, Display Baskets, Chaffing Dishes and Buffet Dispensers are just some of the other items that complete this section.

New for this brochure, the Dual Angle Double Walled Bowl is a stylish and elegant way to add sophistication to a buffet. Built from stainless steel with a satin finish, they are available in two sizes for a choice of applications.

*Versatile, durable and interchangeable range  
of Buffet & Display items*

# Barware

Genware Barware products cover the essential back and front of bar lines. Products are designed to enhance the look of the bar area, with functionality and ease of use built in as standard.

Dishwasher racks, both open and compartment racks for glass stemware, are assembled and made to your specific glass height. Outdoor products include modern ashtrays, and popular barrier pole systems with both rope and retractable tape options.

*Stylish and practical barware essentials*

# Glass Rack Sizing Guide

## Instructions

- 1) Place glass upside down on top of the middle circle of the sizing guide, centre of the glass (or the stem on stemware) should be over the centre of the guide.
- 2) Look down on the base of the glass.
- 3) Note the smallest square on the guide where the largest outside diameter of your glass lines up completely within the square without touching it - this is the number of compartments your rack needs to have.
- 4) Place the lip of glass against the base line of the vertical guide on the left hand side of the page with the base/foot of the glass pointing straight up towards the top of the page.
- 5) While holding the glass against the vertical guide, note where the base/foot of the glass lines up on the vertical guide - the next line above the base/foot on the guide indicates the number of extenders your rack will require.

## Outdoor Products

# Trays

Genware trays offer a comprehensive range of styles to suit all establishments, uses and budgets.

Fast food trays, made from polypropylene offer a bright, value option with a skid resistant surface.

Wood laminate trays give a great blend of rigidity and lightness.

Grip trays come in either an economy polypropylene version, with excellent non-slip surface for secure glass and plate transportation, even when wet, or the stronger fibreglass grip trays, which have the added advantage of being dishwasher safe.

*Versatile ranges of trays for safe, practical and efficient food and drink service*

# Chef Knives

The Genware professional chef knife collection consists of a wide choice of knives and accessories available through both Genware and the German Knife manufacturer, Giesser.

Giesser knives, designed and manufactured in Germany, provide an industry leading combination of initial sharpness, cutting edge retention and value for money.

Genware black-handled and colour coded range of professional chef knives offer a full tang blade, with razor sharp molybdenum steel blade, which conforms to BS8442-5, giving initial sharpness and cutting edge retention. Larger knives have softgrip handles which give comfortable and positive handling.

Knife sets offer a pre-selected range of knives, ideal for chef colleges, students and professional chefs. Knife cases are designed to carry knives and knife sets safely, offering protection from damage and injury.

New for this brochure, Giesser Colour Coded chef knives are designed to prevent cross contamination.

*A comprehensive range of professional chef knives for all needs and budgets*

Giesser Knives, manufactured in southern Germany, are developed to the highest standards and utilise the very best materials.

They are constructed through the combined use of modern industrial automation alongside traditional hand craft skill.

Giesser Knives are well known in Germany for their strength, retention of sharpness and reliability.

**Our Giesser knives fall into three ranges:**

### **BestCut X55**

The ultimate premium quality forged knife for the modern chef.

### **PrimeLine**

A unique knife featuring a textured rubber handle, perfect for a busy commercial kitchen environment.

### **Professional Chef**

An excellent knife featuring an ergonomic rubber thermoplastic handle ideal for professionals and students alike.

# Kitchenware and Utensils

A comprehensive range of kitchenware and utensils, covering all of the requirements of the chef and professional caterer:

Ranges have been developed with chefs, and are fit for purpose in a professional kitchen environment. Materials are selected to provide the optimum balance of resistance to wear, rigidity and value.

New for this brochure, our range of Colour Coded Spoodles are designed for accurate portion control and are available in a variety of practical sizes and benefit from colour coded handles for easy identification of size.

*A comprehensive and reliable range of  
kitchenware and utensils*

Fits onto BTC8 can

# Storage and Gastronorm

Genware offers a comprehensive range of Gastronorm pans, in stainless steel, polycarbonate and polypropylene. The stainless steel range conforms to EN631 European standard, with a hard wearing electropolish finish.

The range also comes in a complete and extensive choice of size and depth, with the relevant size and depth etched on each piece for easy identification. Also within this range are sealing lids for transportation.

Polycarbonate ranges are ideal for salad bar presentation, and come in extensive depths and sizes. Polypropylene gastronorm containers offer excellent performance and value, and are particularly suitable for food storage use.

*The complete and comprehensive range  
of Gastronorm pans*

## Thermo Boxes

These unique and ultra-lightweight containers are ideal in a range of uses when transporting food to maintain temperature, whether high or low.

- Staying hot, cold and stable for longer with less than 1° C temperature loss per hour
- Rounded corners for safe transport
- Ultra-light
- Impact and scratch proof surface
- Dishwasher safe to 80° C
- Ideal for supporting cold chains to HACCP standards

### Thermo Box Professional GN 1/1

# Racking and Trolleys

Sturdy chrome plated racking provides a flexible solution to racking in kitchens, dry stores and many other environments.

Racking comes in a range of widths, which enable you to maximise storage space, and is simple enough for one person assembly.

Excellent stainless steel trolleys are available in two or three tier versions, and come either flat packed for economy and ease of assembly or fully welded and pre-assembled for simplicity.

*Easy flexible storage and secure,  
durable trolleys*

## Racking & Trolleys

### Wire Shelf

Genware products are manufactured to provide the robustness and durability required for maximum performance in the hospitality and foodservice industry.

We want you to be confident in your purchase and gain the maximum life and value from your Genware products, so we have compiled the following guidelines to assist you. However, should you have any further questions, please contact your Genware distributor directly. We recommend for all of our products that are intended to come into contact with foodstuffs to remove any labels or packaging and to wash, rinse and dry before first use.

## Ceramics

### Dishwashing

To avoid this unnecessary damage and to preserve the appearance of your products, we recommend the following as a guide for washing our ceramic items.

We recommended following the manufacturer's guidelines for wash temperature, rinse cycle and detergent dosage. Assess water hardness and make sure water softeners are used if required. Wash before using for the first time and ensure items are washed promptly after each use.

Use plastic or rubber scrapers to remove excess food residue before washing, as metal utensils or abrasives may damage the glazed surface.

Never wash cutlery or other metal items amongst ceramic products; these should be washed separately in our specially designed cutlery baskets.

### Storage

Wherever possible, use the appropriate racks for storage. Make sure that handles/spouts do not knock together when stored as this can cause wear and damage to the products glaze.

Contact with metal surfaces and other metal products should be kept to a minimum to reduce metal marking and abrasion with metal counter tops. This can be reduced by using plastic or rubber mats to line metal surfaces.

## Guidance

Genware ceramics are Oven, Microwave, Freezer and Dishwasher safe and we offer edge chip warranty on selected lines.

In order to ensure the life of your products, we recommend adequate stock to ensure correct rotation and careful handling will extend the life of your products when in service and provide greater value over the life of your Genware ceramics.

In order to reduce the possibility of thermal shock which can cause damage to your products, we recommend you do not subject the product to sudden extreme changes in temperature such as direct from a freezer to a hot oven or grill.

Our matt glazed and coloured products will tend to show wear and tear to a greater degree than standard glazed white items.

If you are uncertain which products will give you maximum performance, we recommend asking the advice of your Genware distributor.

## Glassware

### Dishwashing

Our range of glassware is designed to be washed in commercial glasswashers. To ensure the on-going quality of the product we recommend the following.

All new glasses should be washed before first use. Glassware should not be washed at temperatures above 60°C as this can cause debris to be baked onto the glasses during the washing process. Glasses that are found to have been cracked or chipped in use should be disposed of and not placed into the dishwasher. Non-caustic detergents should be used as caustic detergents can damage and dull the surface of the glass.

### Storage

To avoid damage to glassware when not in use, we recommend storing glassware in correctly sized compartment glass racks (see p197-198 for our range and p199 for sizing guide).

Do not stack glassware that is not recommended as stackable.

Do not store or place cutlery in glasses as this can damage and mark the surface of the glass.

### Usage

To prolong the life of hot drinks glasses we recommend pre-heating the glasses by running them under a hot tap. Do not put cold liquids straight into glassware that may be hot or warm as this can cause cracks.

## Melamine

Melamine is a robust, highly scratch, chip and break resistant plastic that if cared for correctly can provide a great value alternative to ceramics.

Use plastic or rubber scrapers to remove excess food residue before washing, as metal utensils or abrasives may damage or scratch the products surface.

Do not use abrasive detergents or bleaches when washing, as this may stain or damage the products surface.

Melamine products are dishwasher safe but are not suitable for use in ovens or microwaves and are designed to be used in temperatures from -50 to +100° Celcius.

Suitable for use in chafing dishes & bain maries within the above temperature guidelines.

## Galvanised Steel

Galvanised steel provides a fantastic rustic alternative to stainless steel but it does not possess its rust resistant properties and requires correct and careful usage to get the most of the products.

Galvanised steel should not come into contact with foodstuffs and should always be protected with one of our greaseproof paper liners, particularly when serving food cooked in hot oil as this will cause additional damage to the products.

We recommend hand washing in warm soapy water, as this material is not dishwasher safe. This will reduce the chance of corrosion and staining.

### Acacia Wood

Acacia is a durable hard wood from fast growing trees.

It's beautiful grain and varied colour gives products a warm rich colour. Correct care of wood products can massively increase their longevity in use.

Acacia wood is not suitable for dishwashing and should be washed in warm soapy water only.

It should not be left to soak in water, as this will cause damage to the product and should be dried immediately after washing.

It should also not be left in direct sunlight and be stored in a cool dry place.

Acacia can dry out with use, so occasional application of vegetable oil or food safe wood treatment oil will help to keep the original natural appearance and prolong the life of the product.

Acacia wood is a natural material and its colour and grain will vary from product to product.

Over a reasonable period of time, depending on the level of usage, you should expect the products surface to show a level of wear and tear due to the nature of wood.

### Olive Wood

Olive wood is known for its versatility, strength and striking appearance with each piece being carved from a single piece of wood. Correct care of wood products can massively increase their longevity in use.

Olive wood is not suitable for dishwashing and should be washed in warm soapy water only.

It should not be left to soak in water, as this will cause damage to the product and should be dried immediately after washing.

It should also not be left in direct sunlight and be stored in a cool dry place.

Olive wood can dry out with use, so occasional application of olive oil will help to keep the original natural appearance and prolong the life of the product.

Olive wood is a natural product and by its nature the size, shape and finish will vary from piece to piece, this is also however part of its charm.

Over a reasonable period of time, depending on the level of usage, you should expect the products surface to show a level of wear and tear due to the nature of wood.

### Slate

Slate is not suitable for dishwashing and should be washed in warm soapy water only.

It should not be left to soak in water, as this will cause damage to the product and should be dried immediately after washing.

Cutting directly on slate with sharp or serrated knives will mark the surface of the product.

### Enamelware

To prolong the life of enamelware we recommend, after use, soaking the product in warm or hot water and gently wash with a liquid detergent. Do not use abrasive cleansing pads or gritty soap powders, as this may lead to chips. Before use, a light coating of cooking oil applied to the enamelware makes washing easier.

Do not place empty enamelware or allow to boil dry on a hot plate or gas hob.

### Stainless Steel

Throughout the Genware brochure you will find a wide range of products manufactured from stainless steel. Cared for correctly, stainless steel is a fantastic metal that can provide years of regular service and afford excellent value.

All of the stainless steel products within the Genware range are of the highest standard and should be free from any impurities that could be of detriment to its performance.

Stainless steel is often described as 'rustless' or 'rust resistant' which whilst having an element of truth, will only be the case if it is cared for correctly, including the use of our Peek polish products.

All of our stainless steel products are dishwasher safe and should not be left to soak prior to dishwashing.

Overleaf are some of the key Genware ranges which are manufactured from high quality stainless steel and additional guidance specific to these products.

### Stainless Steel Cutlery

In order to provide the greatest possible value at each and every price level within the Genware cutlery ranges, we put a great focus on the quality of the 'out of the box' polishing levels, as this is key to allow the user to maintain a high quality finish, free from marking, staining and corrosion.

We recommended following the manufacturer's guidelines for wash temperature, rinse cycle and detergent dosage. Assess water hardness and make sure water softeners are used if required. Wash before using for the first time and ensure items are washed promptly after each use.

Our stainless steel cutlery is dishwasher safe and should not be left to soak prior to dishwashing.

We recommend that immediately, or as soon as possible after use,

cutlery should be washed to remove excess food stuffs as they contain salts, acids and fats which may cause corrosion.

Cutlery should not be cleaned with abrasive cleaning articles or detergents as this may scratch, damage or stain the surface of the product.

Cutlery should be washed in specially made cutlery baskets, which should not be over-filled so as not to impede the flow of water and reduce the effectiveness of the cleaning process.

Once cleaned, the product should be dried immediately or removed from the dishwasher to avoid prolonged contact with water or moisture which can cause corrosion or rusting.

### Stainless Steel Cookware

Stainless steel cookware is fast becoming the material of choice for hotels and restaurants because it is relatively easy to keep clean, hygienic. It is more durable than aluminium and, as with all of our stainless steel products is dishwasher safe.

Stainless steel cookware is suitable for use on all heat sources including induction.

Once the product has been used, we recommend the removal of any accidentally burnt on foodstuffs and also washing the product immediately to reduce the risk of corrosion.

When using cookware, always keep any flame or heat source to the base of the pan. Never allow flames to reach the side of the pan, as overheating can cause discolouration.

The use of metal utensils may scratch or damage the surface of the products.

Ensure that all items are dry and clean before storing, to ensure a long life for your product.

### Vacuum Beverage Servers

Stainless steel vacuum beverage servers are a great way to keep beverages at their optimum temperature, for up to 20 hours if cared for correctly.

Vacuum beverage servers are not dishwasher safe. Dishwashing may cause the product to lose its vacuum properties.

Hand washing in warm soapy water with mild detergents is recommended.

Spare lids are available for a number of products in this range and can be used to prolong the life of the product for many years.

### Aluminium

Throughout the Genware brochure, you will find a wide range of products manufactured from aluminium.

Aluminium is a softer metal than stainless steel and requires a greater level of care, both in use and during washing.

All of the aluminium products in the Genware range are of the highest quality and should be free from any impurities that could be of detriment to its performance.

Aluminium is a fantastic conductor of heat and is used within the majority of our cookware ranges (including a layer within the base of our stainless range), as it is by far the best material to provide even heat distribution.

All products manufactured from aluminium are not dishwasher safe. Dishwashing will cause the product to become discoloured due to the caustic nature of detergents.

Below are some of the key Genware ranges which are manufactured from aluminium and additional guidance specific to those products.

### Aluminium Cookware & Bakeware

Aluminium cookware & bakeware has been the preferred choice of many chefs for decades, due to its fantastic heat distribution properties. Correct care for your aluminium cookware & bakeware is vital to ensure its long life and maintain outstanding value.

Stainless steel cookware is suitable for use on all heat sources excluding induction.

Once the product has been used, we recommend the removal of any accidentally burnt on foodstuffs, and washing the product immediately to reduce the risk of corrosion.

When using cookware, always keep any flame or heat source to the base of the pan. Never allow flames to reach the side of the pan, as overheating can cause discolouration which cannot be removed.

The use of cooking oil is recommended to prevent food from sticking to the pan. Acidic foodstuffs may mark the product if it is left in the pan for any length of time.

Aluminium cookware should not be subject to massive changes in temperature, such as plunging a hot pan into cold water, as this may cause distortion.

The use of metal utensils may scratch or damage the surface of the products.

Ensure that all items are dry and clean before storing to ensure a long life for your product.

### Non-stick Aluminium Cookware

Non-stick aluminium cookware should be cared for in the same way as aluminium cookware & bakeware, with following additional precautions.

In order to maintain the non-stick coating, metal or abrasive articles should not be used in, or to clean the product.

We recommend the use of heat resistant plastic utensils.

The product is oven safe up to 230° Celcius – over heating the product may cause damage to the non-stick surface.

### Black Iron Cookware

Black iron cookware is suitable for use on all heat sources including induction.

Black iron products are supplied with a coating of protective lacquer that should be removed by washing in hot soapy water prior to use.

The products should then be seasoned before use; this is best done by gently heating about 1cm of oil in the base of the pan. After heating the oil, allow it to cool before disposing of the oil, wipe the pan with kitchen paper. This seasoning starts the beginning of a naturally forming 'patina' on the surface.

The patina will develop with regular use and the surface of the pan develops a natural non-stick layer.

After cooking with black iron, the pan should only be carefully wiped out with kitchen paper.

Always store the pan in a dry place to avoid the pan rusting.

If light rust spots do occur, they can be carefully removed with a scourer. The seasoning process should then be repeated before further use.

Black iron products are not dishwasher safe.

### Professional Non-Stick Bakeware

Professional non-stick bakeware should be cared for in the same way as our aluminium cookware and bakeware listed earlier in this section, with following additional precautions.

In order to maintain the non-stick coating, metal or abrasive articles should not be used in, or to clean the product.

We recommend the use of heat resistant plastic utensils.

The product is oven safe to 240°C/ 475°F/ Gas mark 9. Over-heating the product may cause damage to the non-stick surface.

Professional non-stick bakeware is fridge, freezer and dishwasher safe.

### **Polycarbonate (PC) - Plastic**

Polycarbonate is a robust, durable and rigid plastic, which is often transparent in appearance.

It is suitable for dishwashing and has a safe temperature range from -40 to +100° Celcius approx.

### **Polypropylene (PP) - Plastic**

Polypropylene is a flexible plastic which can provide a great value alternative to polycarbonate and is often marked out by its translucent appearance.

It can be combined with other materials, such as rubber in our non-slip trays. For dishwasher safety and temperature range, please look for the relevant symbol next to the product you are purchasing within our brochure.

Our range of polypropylene gastronom pans are dishwasher, freezer and microwave safe.

### **Polyethylene (low & high density, PE) - Plastic**

Polyethylene is used to produce our high and low density chopping boards. High density PE is tougher than low density and will keep a better, usable surface for longer, as it is more resistant to cutting.

PE is not dishwasher safe as this may cause the product to warp.

It has a safe temperature range from -40 to +95° Celcius approx.

### **SAN - Plastic**

SAN is a tough but brittle plastic that can be made transparent or takes colour well, and can be produced with high gloss finish.

SAN is dishwasher safe up to 71° Celcius approx. and is also microwave safe.

It has a safe temperature range from 0 to 71° Celcius approx.

### **Acrylic - Plastic**

Primarily used in our salt and pepper mills, due to its fantastic clear appearance.

Acrylic is not dishwasher safe and should not be subjected to temperatures above 50° Celcius.

### **Laminated Wood Trays**

Our laminated wood trays are robust and lightweight.

The product should not be dishwashed and should be wiped down and cleaned with a damp cloth after use.

### **Fibreglass Trays**

Unlike all of the other wood and plastic trays in our range, fibreglass trays are dishwasher safe.

We recommend they are stacked flat after dishwashing to preserve the shape of the product.

It has a safe temperature range from -50 to +140° Celcius approx.

### **Chef Clothing**

All of our chef clothing items and garments are supplied with a label detailing the washing instructions. We recommend following these instructions at all times to ensure longevity of the product.

### **Chef Knives**

Our ranges of chef knives are all manufactured from special types of molybdenum steel, which is designed to be harder than traditional stainless steel. This is required to allow the blade to be made razor sharp.

Due to the hardness of the steel, it possesses less resistance to rusting and staining than stainless steel. Therefore the product should not be left with food residue or left wet and should be washed immediately after use.

We do not recommend dishwashing of chef knives.
